Subject: Bathymetric Survey of Routes, Channels, Anchorages and Basins within and leading to Petroleum ports.

Details / Information:

Bathymetric Survey of Routes, Channels, Anchorages and Basins within and leading to Petroleum ports.

M/s FUGRO SURVEY Middle East have been appointed by ADNOC-Petroleum Ports Authority, to provide detailed bathymetric survey for full seafloor coverage of Routes, Channels, Anchorages and Basins within and leading to Petroleum Ports,. The survey will be conducted by FUGRO vessel "M.V FUGRO PROTEUS".

The survey project will extend over an approximate period of three years. Regular Marine Notice and Nav. warnings will be issued by the local port authorities and the survey vessel during the project execution.

CAUTION: All Ships are advised to proceed with a safe speed and to maintain a listening watch on VHF channels 9 (Port Control) and 21 (VTIS).
